*Amendment*

1. Amendment filed January 22, 2001 has been entered as Paper No. 6. Claims 1, 20-28, 33, 35 and 36 have been canceled. Claims 2-19 have been amended. Claims 37-63 have been added. Claims 2-19, 29-32, 34 and 37-63 are pending.

*Election/Restrictions*

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 2-19, 29-32 and 37-63, Group I, drawn to a method for cleaning a wafer, classified in class 134, subclass 1<sup>+</sup>.
  - II. Claim 34, Group II, drawn to an apparatus, classified in class 219, subclass 121.78.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions Group I and Group II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus can be used to clean any surfaces including auto parts.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2814

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
